

Correcting your Birthright Political Status!

The Maine Assembly is one of the 50 American State Assemblies working to restore our lawful government the way our Founders intended it to be, before the fraud, corruption and deceit became rampant and out of control.

Unfortunately, we have been taught that a U.S. Citizen or a citizen of the United States is the same as an American State National. However, it is not true and is part of the propaganda and lies that perpetuate the fraud, corruption and deceit of the current government. Someone with the political status of a U.S. Citizen or a citizen of the United States does not have the same rights or protections as someone who has the political status of an American State National. This fraudulent system unlawfully converted Americans to a different political status at birth (U.S. Citizen and/or citizen of the United States) in order to usurp the people's rights, liberty and pursuit of happiness.

The current government does not disclose the different rights and protections of the different political statuses because it would expose the fact that the current government is fraudulent and not accountable to the people. The reason being is because it is not a true government, but an incorporated entity or franchise that deceitfully copy-cats a name, is run by a board of directors and Chief Executive Officer, and is responsible only to the shareholders and the bottom line.

For example, the Federal Reserve System sounds like a government agency but in fact it is a private corporation that controls the entire monetary system of our country.

Alfred Crozier (1863-1939), in his book *"U.S. Money Vs. Corporation Currency. Aldrich Plan: Wall Street Confessions! Great Bank Combine"* attempts to warn us stating, "... by far is the most daring and dangerous scheme ever introduced into Congress."

He further explains how the name, The Federal Reserve System, was intentionally crafted to deceive the people, as well as Congress, into believing this "system" and the Bill(s) it put forth were good for our country.

As a result, The Maine Assembly along with all Assemblies nationwide are assisting people to return their political status back to an American State National where they regain the authority to restore the lawful government where *"... all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness"*.

In July of 1779, the Founders faced a problem of how to identify Americans versus Brits and Dutch and Swedes and other nationalities living here in this country? The 1779 Naturalization Act was the answer.

It's a very simple requirement by which our Forefathers identified themselves as Americans and not Brits, not French, not Dutch.... or any of the other options that were available in Colonial America.

We have been facing a similar problem today, in that our fraudulent government have proliferated and promoted their citizenship(s) as separate political statuses, and have created false registrations as U.S. Citizens and citizens of the United States in our names without our knowledge or consent.

Once again, the need to declare our political status as Americans via The 1779 Naturalization Act is of the utmost importance at this time. The 1779 Declaration document is utilized so Americans, both those born within the physical borders of the States, and those who have been Naturalized as United States Citizens, may establish and/or re-verify their political status by recording their Declarations with their State Assemblies.

You will also need 2 Witness Affirmation Forms completed by adults that have known you for 7 years or more, a copy of your Birth Certificate (if you have Naturalization papers or a Green Card you will also need to have them available) and a copy of the Declaration of Political Status form (do not autograph this form at this time).
